

Peripheral Neuropathy Summit 2026

DR. GERALD SMITH
HOST, INTEGRATIVE MEDICAL DOCTOR

A Breakthrough Event for Patients, Providers & Caregivers ✨ January 28, 2026 at 7pm EST

Peripheral neuropathy affects millions—yet many still struggle to find clear answers, effective treatment options, and real cures. The Peripheral Neuropathy Summit 2026 brings together three leading experts, cutting-edge research, and practical strategies to help attendees better understand, reverse chronic pain, and improve neuropathy treatment outcomes.

What You'll Learn

- 18 uncommon root causes of peripheral neuropathy (beyond symptom management)
- Clinically proven, effective, non-invasive Ngui Matrix Qigong Acupuncture treatment
- New insights into diabetic neuropathy and how to reduce the associated pain, numbness, and tingling without drugs
- Lifestyle, nutrition, and clinical strategies that support nerve regeneration
- Dental cranial peripheral neuropathy connection

Who Should Attend

- Individuals living with peripheral neuropathy
- Family members and caregivers
- Healthcare providers seeking updated clinical insights
- Anyone looking for real answers and actionable guidance

Dr. Stanley Ngui

Why Attend

- ✓ Evidence-based education
- ✓ Practical, easy-to-understand presentations
- ✓ Access to experts who specialize in neuropathy care
- ✓ Proven solutions to resolve the root causes

Dr. William Wong, ND, PhD

Don't miss this opportunity to reverse peripheral neuropathy—rather than just treating the symptoms
